EXPERIENCE

Full-Stack Developer

TeamIndiaWebDesign, Jaipur | Aug 2024 – Present

- Built and deployed full-stack flight and hotel booking platforms for B2C and B2B users.
- Integrated third-party APIs for real-time bookings and price updates.
- Implemented secure JWT-based authentication with role-based access using Node.js and Express.js.
- Improved performance and UX by optimizing frontend rendering, backend API logic, and MySQL query speed.
- Developed REST APIs in Node.js and integrated them into the frontend using React.js and Redux.
- Delivered end-to-end features across frontend (React.js), backend (Node.js), and database (MySQL), ensuring seamless functionality.

Frontend Developer Intern

TeamIndiaWebDesign, Jaipur | Apr 2024 – July 2024

- Built modular and reusable React.js components for booking workflows.
- Integrated REST APIs for displaying dynamic flight and hotel data in real time.
- Implemented form validations, state management, and user-driven UI interactions.
- Enhanced API response rendering and UI responsiveness.

Web Designer Intern

Technoglobe IT Solutions — Jan 2024 – Mar 2024

- Created static and responsive websites using HTML, CSS, and JavaScript.

- Collaborated with senior developers to transform Figma designs into functional layouts.
- Ensured cross-browser support and accessibility best practices.

PROJECTS

Flight & Hotel Booking Platform

Tech Stack: React.js, Node.js, MySQL, JWT

- Developed and deployed full-stack booking system with separate panels for users, agents, and admin.
- Created REST APIs in Node.js and secured them with JWT-based role-level authentication.
- Integrated third-party APIs for live pricing, payments, and booking confirmation.
- Designed MySQL database schema to manage users, bookings, transactions, and role access.
- Implemented real-time updates and improved data flow between frontend and backend using Redux and async API calls.
